Continue in this manner, working 1 less stitch in each row, until there are:				
8	9	11	12	13
wrapped stitches on each side of the heel and:				
8	10	10	12	14
stitches remaining between wrapped stitches and you are ready to begin a right side row. Slip 1 WYIB, knit:				
8	10	10	12	12
stitches. The next stitch should be the first wrapped stitch. Knit the wrapped stitch AND its wrap together through the back loop. Slip the next stitch WYIF – it should now have two wraps. Turn. Slip 1 WYIF, purl:

to first wrapped stitch. Purl the wrapped stitch AND its wrap together. Slip the next stitch WYIB – it should now have two wraps. Turn. Slip 1 WYIB, knit:				
10	12	12	14	14
stitches. Next stitch should have two wraps. Knit the wrapped stitch AND both its wraps together through the back loop. Wrap next stitch – it should now have two wraps. Turn. Slip 1 WYIF, purl:

stitches. Next stitch should have two wraps. Purl the wrapped stitch AND both its wraps together. Slip the next stitch WYIB – it should now have two wraps. Turn. Continue in this manner, working one more stitch in each row, until the last double-wrapped knit stitch is worked and one double-wrapped purl stitch remains. DO NOT TURN – continue knitting across the

instep stitches. The next stitch should be the first heel stitch and it should have 2 wraps. Knit it AND both its wraps together (through the front loop this time, not the back loop). Knit across:				
11	13	15	17	19
heel stitches to beginning of round. This completes the first round of the foot. Work in stockinette to desired length or until:				
48	56	64	72	80
rounds have been completed, correcting any gaps at the corners of the heel as you work the second round of the foot. Begin toe by working as for heel until last double-wrapped stitch and its two wraps are knit together through the back loop. Turn, slip 1 WYIF, purl to last toe stitch, purl stitch and its two wraps together. Break yarn leaving a long tail. Graft toe closed using the kitchener stitch. Weave in loose ends. Done!
